

The Mount School Governors (Committee)

Overview

At The Mount we have a committed board of governors who play a vital role in the ongoing development of the School. The main role of the governing body (which we call Committee) is to oversee the way the school is run, both in terms of practicalities and ethos. As a charity, Mount governors are also trustees.

There are different categories of governors; external governors, who are recruited (or 'co-opted') from business, education and community organisations, parent governors and Old Scholars (former pupils).

Our current governors have a wide variety of experience in the financial, educational, HR, legal and building sectors. In addition, several governors have experienced The Mount either as a parent, or a former pupil. All governors serve voluntarily and without payment. The governors also include members of the Society of Friends (Quakers), to ensure that Quaker values are fundamental to the school's ethos.

When a vacancy arises, it will be advertised on the School website. In addition, we aim to maintain a list of potential candidates who are motivated to serve on the Committee or as a co-opted member so anyone wishing to express an interest should contact the Clerk of the Committee, via email. Appointments will be made on merit and consider the need to fill any identified skills gaps.

You can learn more about our current governors in the Meet our Governors section below.

1. What do the Governors do?

The governing body is ultimately accountable for the business of the school. Their key responsibilities include:

- Ensuring the school has a clear vision and strategic direction supported by long term goals.
- Overseeing financial performance and ensuring money is well spent across a school.
- Monitoring and evaluating overall school performance which includes teaching and learning as well as ensuring the policies and systems are in place which safeguard students and facilitate pupil voice.
- Holding the head and senior leadership team to account by providing challenge and strategic oversight to the decisions they make.

2. How does our governance structure work in practice?

The full Committee meets termly and holds a strategy day usually in September.

While it is the responsibility of all committee members to ensure the School is well run, the full Committee delegates specific areas of responsibility to six sub-committees for their detailed scrutiny and input. Each of these sub-committees meets termly and reports to the full committee where their proposals must be ratified.

School staff are regular 'standing members of each of the sub-committees, with pupils and externals also attending for their input and contribution. Each sub-committee has Terms of Reference which are reviewed and agreed annually by the full Committee. You can access the sub-committee terms of reference document on The Mount School website if you would like more detail. www.mountschoolyork.co.uk/about-the-mount-school/our-staff-committee/governing-body/

1. EDUCATION is concerned with all aspects of pupils' personal development and pastoral care, as well as the academic and other achievements of all pupils from pre-school to College.
2. ESTATES & FINANCE ensures the School's financial resources and managed well. The sub-committee provides detailed scrutiny of the annual budget and oversees investment and improvement in the School's land and buildings as well as income generation activities. The School's trading arm, Mount School Estates Limited, reports into this sub-committee.
3. REPUTATION, ADMISSIONS AND MARKETING is concerned with the image and reputation of the School through its own publicity and through the media. The sub-committee oversees and monitors the implementation of the marketing and sales

strategy and the pupil retention strategy. It also oversees and provides input into the management of the School brand and fund raising.

4. **COMPLIANCE** ensures compliance with relevant legislation and standards and exercises oversight of the School's policies and procedures.
5. **NOMINATIONS** is concerned with all aspects of the search, selection, nomination, and recommendation of new School Committee members, ensuring the requisite balance of capabilities in Committee.
6. **STAFFING AND REMUNERATION** approves and monitors the effectiveness of policies relating to remuneration and appraisal and is responsible for arranging the recruitment and the appraisal of the Head.

In addition to the formal governance structure, the School also operates a system of 'link' governors who assume specific responsibility for aligning against key school functions. These include safeguarding, boarding, Health and Safety and Early Years
